Sycamore Log

JULIA STEDDOM

HELLO!

I'm the Sycamore Log, and I should like to explain a little about myself to you. Like other yearbooks, I am full to the brim with pictures. However, as you turn my pages, you will find that I have a personality all my own. I am sort of a diary of the year's happenings as they took place.

Yes, I know I sound as if I am bragging; but I think you will understand me more completely after our little tour.

I hope you will enjoy taking this journey through the school year with me. I shall act as your guide, though I don't suppose you really need one. When you see my pictures, I am sure you will recall everything that I have recorded.

Yours,

Sycamore Log

Mr. Denecke will be there to greet you.

In the Winter, we often see scenes like this; but inside our school the activities continue as usual.

In the spring, there are many extra-curricular activities, such as a trip to Cumberland Falls State Park, Cumberland Falls, Kentucky, for the Sycamore High School Photographic Association.

Before we know it, spring will be upon us; and it will be time for summer vacation again.

The welcoming address for commencement was given by William Clark, valedictorian of the Class of 1957. Bill, an outstanding, all-round student, was presented a scholarship from Harvard University, along with the Montgomery Women's Club scholarship. He was awarded the plaque which the Booster's Club presents to the outstanding boy of Sycamore each year. As president of the Sycamore High School Photographic Association, chief annual photographer for two years, and a member of the football team for four years, Bill participated in many and varied activities.

GRADUATION

"Not finished, just begun," the class motto, expresses the feelings of the seniors.

Dr. Walter C. Langsam, president of the University of Cincinnati, gave the commencement address after he was introduced by our principal, Mr. Denecke.

The strains of "Pomp and Circumstance" are heard as the first of our Seniors proceed up the aisle. As they go, they realize that this is the beginning of a new life, whether it be continuing in school or entering the business world.

Now we have come to the end of our journey; but before we part company, we think it is appropriate to dedicate this book.

One of the first people a wide-eyed freshman meets up with is Mr. Van Houten since he teaches underclass subjects. Mr. Van Houten is a favorite at Sycamore with freshmen, sophomores, juniors and seniors, alike. When not teaching, he enjoys caring for his tropical fish and working in his garden. His home resembles a park with its green grass, trees, shrubs, roses, and other flowers. Inside the house there are many articles which he has made, such as bookcases and lamps.

As we were once bewildered freshmen, and were guided through that first difficult year by him and others, it is our pleasure to dedicate this book—the crowning achievement of our year—to Mr. John D. Van Houten, for being, not just a teacher, but a friend.

The **AVCO** **Manufacturing Corporation**

WORKING IS LEARNING — teenagers graduating from high school often think their learning will cease after commencement. After several years have passed these young people awake to the truth that all living is learning, and every experience is a laboratory and testing ground for what we have discovered.

LEARNING IS DEVELOPMENT — employees are stimulated to learn by:

- Using their imagination
- Trying out their ideas
- Profiting from their work experience
- Listening to others tell their ideas
- Practicing to improve performance
- Experimenting to find better ways
- Asking questions

DEVELOPMENT IS THE FUTURE — it is a way of living at AVCO: it is a formula for progress. We believe that those who continually strive to improve by learning, will inherit the future.

IF

If you can dream—and not make dreams your master;
If you can think—and not make thoughts your aim,
If you can meet with Triumph and Disaster
And treat those two imposters just the same:
If you can bear to hear the truth you've spoken
Twisted by knaves to make a trap for fools,
Or watch the things you gave your life to, broken,
And stoop and build 'em up with worn-out tools;
If you can talk with crowds and keep your virtue,
Or walk with Kings—nor lose the common touch,
If neither foes nor loving friends can hurt you,
If all men count with you, but none too much:
If you can fill the unforgiving minute
With sixty seconds' worth of distance run,
Yours is the Earth and everything that's in it,
And—which is more—you'll be a Man, my son!
